**Call us today and let's kickstart
your journey to greatness!**

**Don't wait – dial now and let the
magic begin!**

AGE VERIFICATION

Our POS system features age-related access controls and functionality that verifies age on a product-by-product basis.

INVENTORY MANAGEMENT

With our tobacco shop POS system, you can track product movement in and out of the store. It helps automate orders, vendor management, stock notifications, and generate detailed sales reports.

SCAN DATA REPORTING

With the scan data reporting, you can obtain and analyze market trends, and it helps with managing stock in line with sales.
